

# Housing Information

Private Accommodation in Lisbon

## 2016/17

Dear student,

Below you will find some rooming suggestions to assure that you find the most adequate accommodation for your housing needs. Finding a room in Lisbon upon arrival, can be a overwhelming. We suggest you start looking into housing immediately.

Regrettably you should not consider the student residences because they are limited and strictly for students from **extremely** poor countries with *no financial support whatsoever*.

The Mobility Office (NMCI) has selected for your convenience a *few* student apartments: try to search for the ones which are closest to campus, preferably with other students to facilitate your integration in everyday academic and social life.

The majority of the rooms proposed are walking distance to University. The landlords are reliable and have a reasonable command of the English language. This will minimize potential communications issues in the future.

From the apartments listed below, select the room which best suits your needs. Consider what is being offered, size, facilities and services, location and price. Contact them directly, ask questions and inform them of your intention to reserve one of the rooms. Follow the procedures and request a **formal residence letter, if you require VISA** (you may have to pay 1 rent in advance to reserve a room). You will need this letter in order to apply for the VISA, as you will be requested to provide your address in Lisbon.

Note that these are only *suggestions* and you are free to browse the internet and select any apartment or room you want, *but at your own risk*.
